SUMMARY

Ambitious software engineer and web developer seeking internship opportunities for the summer of 2021. Currently en route to graduate from Cornell University in May 2023.

EDUCATION

Cornell University

Ithaca, NY

Bachelor of Arts (BA) - Computer Science

Degree Expected May 2023

WORK EXPERIENCE

Boosted.Club

Remote

Software Engineer

March 2020 - August 2020

Built a platform to provide content creators with monetary advertisement quotes and valuations, while helping coordinate and manage a team of developers. Utilized Python, Node.js, JavaScript, and HTML&CSS.

Cornell Wardrobe

Ithaca, NY

Software Engineer

August 2019 - Present

Worked with team to develop a system for providing free professional attire to students in need. Full-stack development process from creating Sketch designs to back-end and front-end implementation, all while coordinating with operations and the events team.

PROJECTS

DiscordPlace.com

Remote

Web Developer

May 2019 - September 2019

A personal summer project to build up knowledge of API utilization, PHP, and database management. Project sought to provide users with a less expensive alternative advertisement platform for Discord servers.

BloxMarket

Remote

Web Developer & Customer Support

Jan 2017 - July 2017

Helped build a marketplace system for users to sell virtual game goods using PHP, SQL, Javascript, HTML&CSS. Provided online support and customer service to users.
